

IT and ME Works

Business Information Systems Strand

Introduction:

The focus of this strand is to help students make a smooth transition from high school to life. Whether the path leads to advanced schooling, the military or directly into the world of work, New Hampshire students must be prepared to live, learn and work in the 21st century. In this strand, students will learn database creation, spreadsheet calculations and linking, information management, effective oral, written and electronic communication, international business, consumer behavior and website analysis.

The Unit topics covered in the 15 lessons taught over 32 to 40 hours are Database Management(5 lessons), Linking Spreadsheet Information(2 lessons), Information Management(3lessons), Communications(5 lessons), and Recognizing Cultural Differences in International Business Relationships(1 lesson).
