

I.T. and Me Works

**A Follow up Course of Study to
I.T. and Me with Complete Lesson Plans
For Eighth or Ninth Grade Students**

Section 4:

“ Network Systems “

The focus of this strand is to help students configure computers in a peer-to-peer situation utilizing the most common software - Windows 95 or windows 98. Students will learn the basic fundamentals of building a network from configuration to installation. In addition to the technical skills, students will gain skills and experience in business etiquette and customer relations.

Development of this course was made possible through the use of funds under the Carl D. Perkins Vocational and Technology Act of 1998 and provided by the NH Department of Education.
