

# I.T. and Me Works

**A Follow up Course of Study to  
I.T. and Me with Complete Lesson Plans  
For Eighth or Ninth Grade Students**

## **Section 3:**

### **“ Programming and Software Development”**

The focus of this strand is to help students gain an understanding of structured and object-oriented programming. Students will develop problem-solving techniques and critical thinking skills through the application of programming concepts. Furthermore, students will gain an overview of the programming languages used in software development for use in today's computerized society.

Development of this course was made possible through the use of funds under the Carl D. Perkins Vocational and Technology Act of 1998 and provided by the NH Department of Education.
